EDUCATION

Vellore Institute of Technology

Btech in Computer Science and Engineering

September 2022 – August 2026

Bhopal, India

COURSEWORK / SKILLS

- SQL
- Database Management
- Computer Network
- Python
- OOPS Concept
- Operating System

EXPERIANCE

Digimagnate

08 2026 – Present

Web Developer Intern

Jaipur, India

- Currently working as Web Developer Intern at Digimagnate. Contributed to the development and customization of websites for 10+ clients, working on diverse web-development requirements and business use cases.
- Developed and customized responsive websites using HTML, CSS, JavaScript, WordPress, and Elementor.
- Built and refined frontend sections with emphasis on responsive layouts, consistent styling, typography, and user experience.
- Implemented and customized website components, animations, and interactive UI elements to improve overall usability.
- Worked on WordPress website content and page customization, including Elementor-based layouts and blog publishing.
- Assisted with SEO-focused content implementation, including page metadata, featured images, FAQs, and structured content.
- Debugged and resolved frontend and WordPress-related issues while ensuring assigned tasks were completed within project requirements.
- Collaborated on website design improvements and translated requirements into functional web interfaces.

PROJECTS

Tcrop Python, MySQL

- Designed and developed a desktop-based ticket reservation system that enables users to book tickets, view reservations, check train routes, and search available trains through an intuitive GUI.
- Implemented a **MySQL** relational database to manage trains, routes, users, and booking records, ensuring data integrity and efficient query performance.
- Built the application backend using **Python and SQL**, integrating **mysql.connector**, **pymysql**, and **SQLAlchemy** for secure and efficient database connectivity.
- Utilized **Pandas** for data processing, validation, and transformation of train schedules and reservation data.
- Created a user-friendly interface using **EasyGUI**, allowing non-technical users to interact with the system easily.

House Price prediction Python, pandas, scikit-learn

- Developed a machine learning model to predict house prices based on features such as area, number of bedrooms, and property age.
- Performed data preprocessing and feature selection using pandas.
- Implemented Linear Regression using scikit-learn to model relationships between housing attributes and price.
- Trained and tested the model to generate predictions on unseen data.
- Analyzed the impact of different features on price estimation.

Student Study Time Predictor Python, Pandas, scikit-learn

- Built a regression-based predictive model to estimate student scores from study hours.
- Applied data preprocessing and feature handling using pandas.
- Designed and trained a Linear Regression model using scikit-learn.
- Evaluated model performance and improved prediction accuracy.
- Derived insights into how study time impacts student performance.

Trace Fresh [🔗](#) | HTML, CSS, SQL

- Constructed an online edible products delivery website with features like tracking of order.
- Developed backend and databases using SQL for maintaining the data of users and the products.

TECHNICAL SKILLS

Languages: Python, SQL, HTML, CSS

ML/AI Libraries: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn

Developer Tools: Jupiter Notebook, Google Collaboratory, VS Code, Python IDLE, MySQL Workbench, MySQL Command Line Client, MS Excel, CSV, PowerBI

Databases: MySQL

Core Concepts: Database Management, Exploratory Data Analysis (EDA), Machine Learning, Supervised Learning, Classification, Regression, Data Preprocessing, Model Evaluation

CERTIFICATIONS AND ACHIEVEMENTS

- Cloud Computing - NPTEL
- Marketing Analytics - NPTEL
- Python(Basics) - Hackerrank
- Thte Bits and Bytes of Computer Networking - Coursera
- Python Essentials - Vityarthi
