EDUCATION

Vellore Institute of Technology

Btech in Computer Science and Engineering

September 2022 – August 2026

Bhopal, India

COURSEWORK / SKILLS

- SQL
- Database Management
- java
- Web Developer
- OOPS Concept
- Computer Network
- Python
- Web Development
- Operating System

PROJECTS AND INTERNSHIPS

AI-Powered Email Automation System Python,OpenAI,IMAP

- Designed and implemented an end-to-end email processing system using Python and IMAP.
- Designed and implemented a Python-based automation system to fetch emails via IMAP, parse multi-part MIME data, and extract meaningful text using BeautifulSoup.
- Integrated OpenAI API for automated blog generation from email content, optimizing prompts and token usage for efficient output generation.
- Applied secure environment variable management and error handling to ensure robustness and scalability

Web Scraping Summerizer Python,OprnAI

- Engineered a web scraping and AI-powered summarization system to convert large-scale webpage content into concise insights.
- Optimized text preprocessing and token management to ensure efficient handling of API constraints.
- Built a flexible CLI tool enabling real-time summarization of any webpage with customizable output length.

Trainfo Python, MySQL

- Designed and developed a desktop-based ticket reservation system that enables users to book tickets, view reservations, check train routes, and search available trains through an intuitive GUI.
- Implemented a **MySQL** relational database to manage trains, routes, users, and booking records, ensuring data integrity and efficient query performance.
- Built the application backend using **Python and SQL**, integrating **mysql.connector**, **pymysql**, and **SQLAlchemy** for secure and efficient database connectivity.
- Utilized **Pandas** for data processing, validation, and transformation of train schedules and reservation data.
- Created a user-friendly interface using **EasyGUI**, allowing non-technical users to interact with the system easily.

TECHNICAL SKILLS

Languages: Python, Java, SQL

Developer Tools: VS Code, Android Studio, Google Collaboratory

Technologies/Frameworks: GitHub

CERTIFICATIONS AND ACHIEVEMENTS

- Cloud Computing - NPTEL
- Thte Bits and Bytes of Computer Networking - Coursera
- Marketing Analytics - NPTEL
- Python Essentials - Vityarthi
- Python(Basics) - Hackerrank
